HAMLIN, JONES COUNTY, TEXAS FRIDAY, SEPTEMBER 29, 1939

NUMBER 48.

## Hamlin Pipers Tried Out Lighted, Rocked-In Field

Last Friday night, Hamlin people had to keep pinching themselves to really understand where they were "AT." It was all so strange and "un-Hamlin like" till some kind of shock had to be practiced, to make one realize that, "Yep this IS Hamlin."

You see it was the full realization that after all the WPA is responsible for Hamlin having a modern grid field, . . . one like some other towns got the same way far ahead of us. To sit there under full powered flood lights high above, in a field full length, whatever that is) and full width bordered by a high, thick rock wall, and all the inside covered with fresh young green grass . . . it was just too much to accept as "home" all at once.

The crowd was huge, and was filled with interest and enthusiasm and anxious to see the home boys play the first game on the new field. And what a game. Lueders school has one of the best small town teams anywhere, and they played Hamlin a nice game from start to finish. Hamlin people were delighted with the way both teams acquitted themselves.

The great lights played over the field and despite the dust that floated in from streets outside of the field, the vision was exceedingly good. The field has 32 flood lights.

It is remarkable that grass could be transplanted and sodded this season as well as is to be seen down on Piper Field. It is not solid but has almost covered the ground, and bids well to get a full start before frost. The playing on it should make it spread.

Night foot ball is a treat to Ham-

lin folks. Last Friday night there were people at the game who had never seen a foot ball game in Hamlin before. It was after work hours and the novelty created an urge to attend. They had always been interested in the home Pipers, but hot, dusty evenings in a busy season was too great a sacrifice to venture out. Not so now. Cool nights, plenty of company and a good game will pull'em from the business and home.

### PIPERS STARTER LINE-UP

In the starter line-up for the Pipers were Sowell and Walton, Ends; Ellison and Barrow, Tackles; Kelley and Barton, Guards; Lasseter, Center; Nicholson, Quarterback; Ivy, Fullback; Johnson and Dean, Halfback. Among the several substitutes were Hill, Rucker. Hamlin was in a position to make several substitutions.

The outstanding players for Lueders were Reeves and Winkles.

Hamlin Coaches are Smith, Grigg and Caffey.

Lueders Coaches are Berkman, and Parker.

### HAMLIN PIPERS TO PLAY

### ABILENE "B" TEAM THIS FRI.

This Friday night, September 27, Hamlin Pipers will take on Abilene "B" team on the Piper field. It promises to be one of the finest games of the year.

Last year the Pipers out played the "B" team, and they expect to give them a similar treatment tonight. A big crowd is sure to be on hand at 8:00 P. M. tonight.

School for entrance to colleges and universities. In this course, a grade of 60 to 70 will be "D" in the Hamlin schools, but it may not be transferred to another high school.

Below are listed the required subjects and electives of each course:

COLLEGE PREPARATORY COURSE	
Mathematics	3 Units
English	4 Units
History	2 Units
Civics	1 Unit
Science or Foreign Language	2 Units
Electives	4 Units
<b>TOTAL</b>	<b>16 UNITS</b>

COMMERCIAL INDUSTRIAL COURSE	
Mathematics	3 Units
English	3 Units
History	2 Units
Civics	1 Unit
(Passing Average "D") Vocational Agriculture Science	2 to 3 Units
Home Economics	
Electives	4 to 5 Units
<b>TOTAL</b>	<b>16 Units</b>

Frank M. Lawlis,  
Principal High School.

## YORKS ROTAN STORE DAMAGED BY FIRE

The building in which the York Store at Rotan is located was badly damaged by fire in the early part of Monday night.

Mr. York says this was his first store fire. He has more than a dozen stores in West Texas and Oklahoma, and till Monday night, he had escaped any damage from fire and water.

From Mr. York's report, the Rotan building is a two story structure, with the upper part used by the Masonic Lodge. He understood that the ladies were having some kind of meeting in the hall at the time of the fire.

The flood of water did the damage as the fire was confined to the upper story. Practically every article was drenched.

## CONCERNING OLD AGE ASSISTANCE

Apparently there are no visible means of averting a general reduction of \$6.00 in each Old Age Assistance recipient's check for October and for other months to follow. Some say that the liberalized law is the cause; others that failure to provide additional revenues has brought about the present situation. Liberalization has had comparatively little to do with it. The program has been operating partly on borrowed money since its beginning, and the inescapable pay day has arrived. The "liberalized" law in reality qualifies very few who were not eligible prior to the change.

The flat reduction on each individual's check seems to be the most equitable way to meet the emergency since each one's grant represents in dollars that part of his basic needs that are not being met in some other way. All have very much the same basic needs, including food, clothing, shelter and fuel. More of these basic necessities are met, without public assistance, with some of our oldsters than with others, hence the differences in the amounts of the grants. There will be little difference in the effect of the cut on those receiving large grants and those whose checks are smaller. The cut is to be regretted, but recipients by trying hard can find consolation in the fact even with a \$6.00 cut their help will be more than they were receiving three years ago.

Checks totaling \$8,350.00 were mailed to recipients in Jones County in August. This means that Old Age Assistance will have released around \$100,000.00 in this country in 1939—an appreciable amount of money.

J. Luther WATSON, Investigator,  
Box 466—ANSON, TEXAS

### JONES COUNTY TEACHERS ASSOCIATION WILL MEET

OCTOBER 2nd.

The first meeting of the Jones County Teachers Association will be held in the Anson High School Auditorium, October 2, at 7:00 P. M. At this time officers for the ensuing year will be elected for the Jones County Teachers Association, and delegates to the District Meet of the Texas State Teachers Association. Also directors for the Jones County University Interscholastic League will be elected.

Judge Otis Miller will deliver the address for the meeting and E. M. Connell will discuss the twelve year system which is being introduced for the first time in the Jones County Schools.

B. T. Beaver will have charge of announcements.

All teachers are urged to attend and become affiliated with the local association.

H. R. Phenix, President, Jones County Teachers Association.

J. W. Beasley of Stamford, is one of the newest young men for Hamlin, being connected with the Sparks Auto Supply in the King building. Mr. Beasley was formerly a mechanic at a garage and previously for six years in the Ford Service.

## GEN. CRUDE OILERS PLAYING TEXONS, SUNDAY

Last Saturday night at Odessa, General Crude Oilers fought a losing game with the Snipe Conleys Texon Oilers coming out at the little end of the game, with but 2 scores to the Awful Texon's, 6. That don't sound like General Crude news . . . but Fred Hulsey says it is so, anyway.

The two teams had a real old-fashioned tussle on the same field on Sunday, and the tune was a bit different. The Crude Oilers fought that bunch through TEN frames and let the Wild West Wallopers get only ONE count.

Fred Hulsey is bringing the Texons closer to Hamlin this Sunday, in Sweetwater, and to get a good whack at Snipe Conley's gang he is pulling them for a Double-Header. The game is starting in Sweetwater Ball Park at 2:00 P. M., and this is one time every fan will get his money's worth, and it is not so far to go either.

General Crude Oilers are up in "G" in this part of the world and should be in a League of some kind. Maybe when Hamlin's big fine new park is done, Hamlin will be headquarters for a league team, and what a crowd of fans this section will give the boys.

Here is a hunch . . . if you enjoy a real hot game, one filled with all kinds of wham, bam, and flash, this Sweetwater game is going to be IT. These Hamlin Oilers are not accustomed to be pushed out to the little end of the count, and they will hit hard and fast Sunday to wipe out what happened last Saturday night, when they played their first game under big lamps.

## ARRANGING FOR RED CROSS ENROLLING

Monday a Red Cross representative from St Louis headquarters and Jones County headquarters at Stamford, was in Hamlin arranging to assist Hamlin people to enroll as members of the Red Cross, starting on November 11.

Jones County is to have a County Red Cross nurse who will work through the schools to the people—every membership in the Red Cross (\$1.00 each or more leaves every dime in the local communities of Hamlin, Anson, Stamford etc., except 50c—part of this "home Red Cross money" will go to help pay for the County Nurse.

Later volunteer solicitors will be named to call on every person in Hamlin and community. It would appear that this year Hamlin people should join the Red Cross aid and have the largest membership since the years of 1914-18.

The town of Hamlin is represented in the County Chapter by Postmaster, Bonner, W. E. Benson, Sec'y, Chamber of Commerce and Bowen Pope, Editor of the Herald.

Harvey Elkins, son of Mr. and Mrs. W. C. Elkins of Hamlin writes from Air Base Headquarters in San Antonio, that he is planning to enter a special Air Craft School at Chanute Ill., near Chicago. This means he is re-enlisting for a period of three years and will take special training in the art of air craft sheet metal work, one of the essential branches of making and keeping a good air force. He will take this work for several months and then be in line for a better rating in the service. This young man first enlisted in the Cavalry branch of the army and transferred to the air force, shop work.

### BIRTHS REPORTED

Mr. and Mrs. Wood Cowan of Plasterco have a new son in their home since last Sunday morning. Mrs. Cowan is a niece of Mrs. Bill Calhoun.

Mr. and Mrs. Roy Brown are happy over the arrival of a fine baby girl, born Sept 21. Her name is June Ann.

## Hamlin Science Teacher Says Mosquitos Can Be Controlled In This Area

Professor J. Carlton Kinchen, teacher of Science in the Hamlin High school, is starting his third year in this capacity in Hamlin. Mr. Kinchen has experienced three "end-of-the summer" seasons in Hamlin that is when he finished this season to cold weather.

The first time Mr. Kinchen came was the first of September, and then he found life out in the open air after sundown or dark impossible because of mosquitoes. He was a new boy, and very timid about suggesting to the old heads in Hamlin what should be done. He managed to stand it till killing frost. Last year he returned to his position as science teacher and the same mosquito dodging had to be done all over again. Along with his teaching duties, Mr. Kinchen began to gather samples of water from Hamlin's lakes, and from the various stagnant ponds down the bed of California Creek and on past the city disposal plant. He found then that there was no mosquito larvae of any consequence except just below the plant. Still Kinchen was too timid to say anything (out loud.) He reasoned that if Hamlin people could stand the pests all summer he certainly could put up with them till frost.

Now this young man comes back to Hamlin for a third time. Again he finds the same miserable situation, but this year, our Science teacher is bolder, more outspoken, a married man of more than a year. He has made another survey and he concludes that 90 per cent of all the ravenous mosquitoes eating on the people in Hamlin come from the creek, just below the sewer disposal plant. This is about three-fourths of a mile east of the business section of town.

Mr. Kinchen says that a mosquito can easily fly a mile, and with the help of a good wind may travel many miles. So their confirmed breeding place is just right for supplying all Hamlin, and especially the eastern and southern part of the community with wave after wave of fine fat, hungry mosquitoes.

Mr. Kinchen has studied the life and habits of the mosquito and if Hamlin people will cooperate with him, he will rid our yards, homes, and streets of this pestiferous pest.

Mr. Kinchen says that from his estimation 18,618 mosquitoes crawl out of their watery shells every day during the hatching season down at the "mosquito nesting plant." (and he may mean 18 million or more.)

Enough testimony has been accumulated to convict the hatching hole and the guilty place. Now what is the remedy.

Kinchen will direct the fight on the mosquito if the city or citizenship will cooperate with him with some kerosene and labor. He will also take the lead in telling how the folks in homes can help fight the occasional mosquito that may hatch

about the place from cans and bottles, from barrels and buckets and old ditches. The street sides also make a fine place for baby skeeters and even this can be doctored.

Now about "doctoring" that is a game that must be kept up to be effective. One dose of oiling will not last all summer. It will not kill the skeeters either after they get away from the shell. So the time and place is at the water hole, and it does not take much water to hold a skeeter egg. Kinchen says, lets figure the cost:

Already, since the invasion of the mosquitoes this summer, nearly every Hamlin family has spent something towards fighting the mosquitoes. Kinchen says that if half of this amount had been spent to prevent the mosquito we would be entirely free of them.

As it is, one can not enjoy his gallery, his lawn and generally one or two or maybe a dozen or two mosquitoes manage to get into the house and who can sleep in peace when ONE mosquito is poking a hole into you. Who is it that does not get angry—all het-up when he tries to hide his head under a sheet on a hot night and finds that the remedy is worse than the bite . . . both make a fellow sweat with fury. Now if there is nothing done about it, we may expect the same sacrifice of cool lawns and restful galleries next summer.

We need a "mosquito policeman" who will see to it that YOU and I do not breed mosquitoes right in our back yard, that hatching ponds will be well oiled after each rain or at such times as science says best. Kinchen will take the lead if somebody will provide the man or men and the dope. It is worth trying. Kinchen has spoken out now and maybe he is right, why not give him a chance. Why not spend a little for prevention and not so much after the enemy gets to eating on our bodies.

Old timers will tell you that Hamlin hardly ever had a mosquito till Hamlin had a sewer disposal plant. There you will find the shallow water, stagnant and filled with mosquito food. There they hatch and grow fat and fly away to our streets and homes. Let us "GIT 'Em."

### NOTICE TO VETERANS

This is to advise the Veterans of the Hamlin community and their dependents that I will be in Hamlin, Monday, Oct. 2, to assist anyone in filing their claims. See me at the bank—J. T. GRAY, State Service Officer.

Mrs. C. W. Barton (formerly known as Miss Marijo Wilemon) has taken a place with the Haines Beauty Shop as beauty artist. While this young woman has changed her name to Barton, her many friends continue to call her "Marijo" from habit. She has had several years experience in beauty work in Hamlin.

## SOMETHING TO THINK ABOUT

—This is autumn, days of browning leaves and ripening apples, days of melancholy, meditation—the end of the harvest time and growth, the end of another life cycle, and all nature setting to approach the zero-hour of ice and darkness—Autumn days, presenting themselves in beauty, grandeur, solemnity.

—Autumn days, bring disturbance to animal life as winged immigrations start from climate to climate—the bellowing of young calves, the bleating of lambs make melancholy music when they join with the moaning mother cry as they leave their quiet baby pastures and start on wheels across country to new pastures or to slaughter—Autumn days are serious days for man, bird and beast—the end of a period—a change from warmth and growth to chill and death.

—The Herald has received a release for publication from Miss Jewell Hipp, Home Demonstration Agent in Fisher County on the subject of making mattresses out of Fisher County cotton—that is something to think about. When people wear more cotton, sleep on cotton, travel on cotton and really use more cotton, it will mean cooperation with themselves. It used to be farmers used cotton collars, cotton lines etc., maybe now as much cotton goes into their autos.

—It would be nice if a real good rain would come and fix fields for wheat sowing, and pave the way for a green winter. A green winter almost certainly means a bright green spring.

—The way Hamlin country ranchmen are shipping cattle these days would indicate business and money for somebody. This week, rail lines and truck stations have been "bawling" places.

—Already "goose bumps" are showing up on some arms, right after a boiling hot afternoon—but goose bumps are welcomed after the long hot days of August and early September.

Miss Dorothy Watson of Dallas is visiting her sisters, Mrs. Kelly Scott and Mrs. Leland Stefres, who reside north of town. Miss Watson is formerly a Hamlin girl, being the daughter of Ed Watson and wife.

## OBSERVATIONS ON THE WORLD WAR

—It would seem that the world is being divided between the true God-fearing countries and the atheistic nations... how would you like to be yoked up to one Stalin? It looks as if Stalin is to overshadow one Herr-Hitler.

—And now who says the United States is unconcerned? Who is it that agrees with Germany, that this nation should not change its neutrality laws in such a way as to keep us out of the European struggle? And who is it that is not wishing for Old England and Old France to be able to hold back and conquer for the sake of freedom, civilization and Christianity? We must remain neutral, legally, but morally American people, have a big majority for wishing just one side to win.

—One week, these war days, makes a great change in world affairs. Right now Russia is massing for something on her southern borders, after having tasted a steal in Poland. But someone has said Stalin means steal.

—Three times in the history of the world, England's navy has saved her life, and today she is stronger than ever on the seas. The question mark hangs around Germany's Airplanes. Suppose Russia adds her 10,000, and maybe Italy her four or five thousand, all of them could not down England's sea force, so scattered over the world's seas.

—Suppose Germany begins bombing Canada, or England's possessions in South America, just suppose. What would our country do?

The great city of Warsaw has capitulated amid death and destruction. Warsaw has died all except her spirit. Not the first time to surrender to Germany, but the first time to be brought to ashes and ruin. Then what is to be the fate of all small countries, armed for defense against Germany?

—Italy may seem satisfied, but even Italy is not safe while Russia and Germany approach from the northeast. The world is crazed with fear, even where freedom reigns, there is continuous disturbances. How long and just why should civilization submit to this situation? What price peace?

—Nobody can be unconcerned, while life and property is in the balance. It is mighty easy to feel secure in a storm, if well protected, but there

is no satisfaction while others are to be seen out there suffering in helplessness. Some persons might say, "why not submit and avoid war's awful consequences." Submission to brute force is not in the blood of liberty-loving peoples, and thus wars must go on till the lovers of peace are masters of every corner of the world. All liberty is gained by blood.

## PIONEER SPIRIT

A trail blazer is one who is first in vision or accomplishment; one who enters new fields; one who prepares the way for others; one who has courage, moral as well as physical; a courageous, ambitious, industrious and persevering person. In short, a person who encounters a problem and emerges with its solution. The pioneer not only subdued an inhospitable land and provided for his own security, but he discharged every obligation to his country and the society in which he lived.

The original pioneers are gone, but the need for pioneering lingers on. Pioneering is not confined to the subduing of new ground, but it extends to current problems, such as the science of government, man's relations with his fellows, issues which involve labor, industry, finance, agriculture, jurisprudence, science in all its branches, conservation of our natural resources, and, in fact, in a field so large that it not only embraces every conceivable activity but challenges the ingenuity of every member of it.

The pioneers not only developed the land upon which we live and of which we are so proud and grateful, but they created the greatest government on the face of the earth today. It is up to our pioneers of today to preserve it. The reincarnation of the spirit of the trail blazers will preserve it.

## TIME TO GO TO WAR!

It is time for America to go to war—but not in Europe. The battle field is right here—in your home and place of business. The enemy is fire.

It is no mean enemy. Each year it destroys property worth several hundred million dollars. It kills thousands of human beings. It destroys property worth several hundred million dollars. It kills thousands of human beings. It destroys great numbers of jobs. It destroys hopes, ambitions, opportunities. It leaves behind scenes of smoking ruin as grim as if bombs had been the instruments of destruction. It strikes when we least expect it, and often where there is no defense.

This year, as in every year, for two decades, a definite date has been set for declaring war against fire. The mobilization days are October 8 to 14. The occasion is Fire Prevention Week.

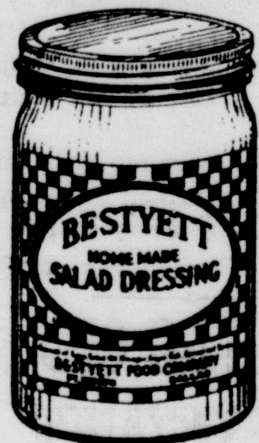

During that period every citizen in the land will be given an unrival-

ed opportunity to learn about fire, and how it may be prevented and controlled. This is no dry-as-dust subject. It will be taught to you vividly and dramatically. Approach it with an open, interested mind. Remember what you read and hear and see. For fire prevention is of the most direct importance to you. No one knows where fire will strike next—your home has as much chance to be the scene of ruin as anyone else's. Your town may witness a conflagration that will bring civic progress to an end.

There can never be too many soldiers in the fire-fighting army. Enlist for the duration of hostilities!

## IT WOULD BE

Eskimo Lover: "What would you say if I told you I have come a thousand miles through ice and snow with my dog team just to tell you I love you?"

Eskimo Sweetie: "I'd say that was a lot of mush."

W. L. Cash and Otis Hopper went to Christoval, Monday to attend the funeral of H. Chapple, age 91 years, 6 mo., 20 days. He was an ex-confederate soldier. Burial was by the Masonic Lodge Mr. Cash and this old man became fast friends several years ago.

B. F. Smith, relief agent for the Express Co., is in charge of the Hamlin business while the regular agent, R. W. Stubblefield is taking a two weeks vacation. Mr. and Mrs. Stubblefield are spending part of the time in Orange, Texas.

Headache, Bad Breath May Be Your Warning

The sea's thrilling S. O. S. means "Help is needed now!" And, so do most of those headaches, that biliousness, coated tongue, or bad breath which are often signs of constipation. To disregard these symptoms may bring on a host of other discomforts from sluggish bowels: sour stomach, belching, loss of appetite. See how much better you feel the day after taking spicy, all vegetable BLACK-DRAUGHT. By simple directions, it acts gently, cleanses promptly, thoroughly. Its principal ingredient is an intestinal tonic-laxative; imparts tone to lazy bowel muscles. Next time try BLACK-DRAUGHT!

Teacher: "For what was Abraham Lincoln famous?"

Janet: "For his memory, teacher."

Teacher: "What makes you think so?"

Janet: "Cause, I've seen so many monuments erected to it."

## HITSON BOY MARRIED

Terry Holland, son of Mr. and Mrs. J. R. Holland, of the Hitson community, was united in marriage recently to a young lady in California. Terry has been in California for some time working in a sugar beet factory.

Below we give an account of the wedding as given by a Sacramento paper.

MISS HARLING AND

TERRY HOLLAND WED

At a quiet ceremony in Sacramento yesterday Miss Elma Harling became the bride of Terry Holland. Rev. Bailey of the First Baptist church performed the rites.

The bride wore a blue frock with navy blue accessories and a corsage of gardenias. She was attended by her sister, Miss Irma Harling, who wore gray with black accessories and gardenias. Raymond Rupert was best man.

Mrs. Holland is a daughter of Mr. and Mrs. Calvin Harling of Woodland and is a graduate of the local schools. Her husband is the son of J. R. Holland of Hamlin, and has many friends here.

The Herald Anywhere 1 Yr. \$1.00

nity. Please get in touch with the

## There was a time

—when old fashioned heating  
methods blistered your face  
while your back shivered.

But now . . .

with natural gas service,  
winter can be just another  
pleasant, healthful season in  
the modern home.

# A timely reminder

*The tag end of summer warns that  
treacherous days of winter are on the way.*

Do you remember the old days? Old-fashioned  
methods of heating . . . children wore heavy under-  
wear and long stockings in order to keep warm . . .  
members of the family "huddled" in one or two  
rooms during cold weather . . . mother went shiv-  
ering about the house with a shawl  
around her shoulders . . . someone was  
always "catching cold"—Remember?  
There is a direct relationship between  
your family's health during winter  
months and the way you heat your

home. Sudden changes of temperature during the  
treacherous months of cold weather are dangerous.  
If you follow the old-fashioned practice of "hud-  
dling" in one or two rooms while the rest of the  
house remains unheated—YOU ARE TAKING  
CHANCES WITH YOUR FAM-  
ILY'S HEALTH. Plan now to have  
adequate heat and healthful tempera-  
tures in every room in the home this  
winter. It's the modern way to fight  
the "common cold."

The cold germ is responsible for  
more than two hundred million  
illnesses each year. Don't give a  
"common cold" an even break!

Association, as the first of its kind  
to be held in the United States.

Recognition for West Texas pio-  
neers will be generous, particularly  
on Tuesday, October 3, to be Pio-  
neer Day featured by the Parade of  
Pioneers, contrasting the West Tex-  
as of yesterday and of today.

A "Stars on Parade" revue, color-  
ful stage show to be presented night-  
ly before a newly completed grand-  
stand, will headline Anson Weeks  
and his famed radio and screen  
band, and a galaxy of stage talent,  
headed by the glamorous Dorothy  
Byton girls and Chaz Chase, pantom-  
ime comedian.

The All-Palomino Show has aroused  
such interest that prospects are  
there will be 200 and more silver  
and gold Palomino mounts partici-  
pating. There will be a daily cow-  
girl sponsor's event, with saddle and  
stock events each day at the rodeo  
and Palomino participation in the  
grand entry and the Pioneer's  
Parade.

### Up to Her Old Tricks

"I think that driver in the car  
ahead of us is an old school teacher  
of mine."

"What makes you think so?"

"Well, she seems mighty stub-  
born about letting me pass."

## TEACHING FISHER CO. WOMEN ABOUT MATTRESSES

The Extension Service is launch-  
ing a mattress campaign this fall.  
Since one purpose of this movement  
would be to use surplus cotton, you  
may be interested to know that it  
takes 50 pounds of cotton to make a  
good mattress. If the people of  
Texas would make and purchase to-  
gether one million mattresses—less  
than one for each Texas family—  
would use up 100,000 bales of cot-  
ton.

Every home demonstration agent  
in the State of Texas has had train-  
ing on mattress making. Misses  
Jewell Hipp and Mamie Carol Smith,  
Home Demonstration Agents of  
Fisher County received training in  
mattress making in San Angelo at a  
district meeting September 19th.  
Let us suggest that every farm fam-  
ily in Fisher County save at least  
50 pounds of cotton from a square  
bale if possible so that cotton may be  
taken off in uniform layers or round  
bale, or 50 pounds round bale rem-

nant, or 50 pounds ginned cotton  
long staple if possible.

It has been decided by a com-  
mittee to hold training schools in  
mattress making in the following  
communities: Hitson, Pleasant Val-  
ley or Dowell, Palava, Eskota, El  
Paso, Gannon, North Roby and  
North Border Line. A woman in  
each community that desires to  
have a mattress made who will fur-  
nish cotton, tick, and thread, will be  
able to have it made by the com-

home demonstration agent at once,  
as first come is first served. These  
demonstrations are to be training  
schools for all the women of the  
county and each club is expected to  
give a mattress making demonstra-  
tion in November at the meeting  
without the agent, so please see that  
your club is well represented. These  
meetings are all day demonstrations  
so please bring a covered dish for  
lunch.

—JEWELL HIPPI, Co. H. D. Agt.

## Chiropractic

Is not as insignificant as some would have you believe—or there  
wouldn't be any Chiropractors today, after forty years of advance  
since the beginning of this science.

Yours is a very unusual case if CHIROPRACTIC does not  
apply to it. BE FAIR TO YOURSELF!!

—Investigate Chiropractic in this office without obligation to you.

## Hamlin Air Mail Information

DEAR PATRON:

Inclosed is schedule giving latest information on air mail service from our office, also arrival time at several of the larger offices in the United States.

As you know, we have never pushed air mail, and was frank to tell you that we did not have service that would justify your use of the air mail unless going a great distance. Since both the east and west planes are coming in at a later hour, we immediately set to work on a "pick-up pouch" at Anson for our 2:45 P. M. dispatch. We have finally gotten this service and can now not only give you almost perfect air mail service, but listed below is a good portion of Texas that we can advance your regular mail from twelve to twenty-four hours.

### REGULAR MAIL:

South Texas, which includes Waco, Temple, San Antonio, Houston, Brownwood, Stephenville and R. P. O. lines from these distributing points. Points west on the T. & P. Railroad. Also states of California and Arizona. Please have your regular mail in the drop by 2:00 o'clock if possible and 2:30 at the latest.

### AIR MAIL:

Heretofore, we have had train service on air mail till it got to Fort Worth, El Paso, and Wichita Falls. Now, we make direct connections at Abilene and can have your letters at the destination for morning delivery at many of the larger shipping centers. Attached is partial list of rates to several foreign countries. Attached is also ruled sheet that you may enter rates to countries not listed, in which you are interested so that you may not have to lose time when coming to the office waiting for information at the windows. Remember that regular air mail is only six cents per ounce compared to three cents for regular mail. Have your air letters in the drop box by 2:30 P. M.

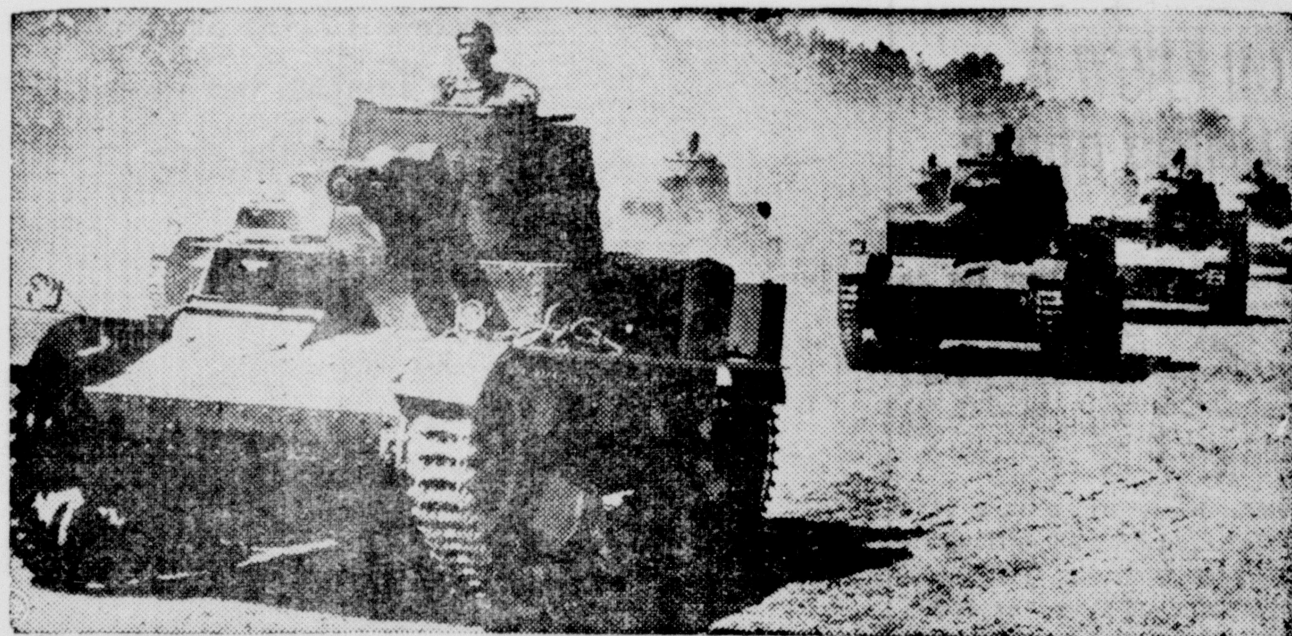

Respectfully,

Harold Bonner,

POSTMASTER

## Lights I.E.S. Study Lamp 2 Hours

## News of the Week From the McCaulley Community

(By PAULINE MABERRY)

Another one of our friends and his family are moving to California. Mr. and Mrs. Leon Rogers and baby. We regret that this family is to leave, but we wish them lots of good luck.

Mr. and Mrs. Tefteller of Roby visited Mr. and Mrs. J. M. Humphries last Friday.

Rev. C. A. Bickley, District Superintendent of the Abilene district preached at the Methodist Church, Sunday. Dinner was spread and quite a few out of town visitors were there for the fourth quarterly meeting.

The Junior 4-H club girls gave a party Monday night at Freda Jo Bartley's. About 20 were present. Everyone enjoyed themselves very much.

We are sorry to report that Jack Maberry had to return to Abilene to the hospital, Saturday. He has been quite ill but we hope that soon he can be up and about again.

Singing was held Sunday at the McCaulley High School auditorium.

Quite a few people were present, also lots of good singing. A singing class has been organized for every Thursday night, but because of cotton picking the class will discontinue and we have classes on every Fourth Sunday.

Derwin Maberry had a birthday party last Thursday at the Hamlin park. Dr. Peppers and pop corn were served to ten little guests. They were: Jo Nelle, Lee, Buddie and Jerry Maberry, Topsy Faulkenberry, Janet and Deloris Ann Bevels, Wanda and Nellie Sue Wicker and Bebe Doris Shelton. Others were: Mrs. Lucius Faulkenberry, Mrs. Willard Maberry, Pauline Maberry and Bernice Shelton. Everyone had a nice time.

Mrs. M. C. Galloway returned from Knox City last Wednesday. She has been there under a doctors care for about two weeks. She seems to be much better.

Mrs. McKay of Royston, and her daughter Mrs. Virgie Young of Abilene, visited with friends in McCaulley last Friday.

## Possibility of Early 1939 Conservation Payments

The Jones County Agricultural Conservation Committee has recently been advised that the 1939 Agricultural Conservation Payment due those producers who have complied fully with the 1939 Agricultural Conservation Program, and who have earned all soil-building units that could possibly be earned in one year, that their payments will be

made within the next few weeks. All producers who have not carried out all soil-building units necessary to earn the maximum soil-building allowance for the farm will not be eligible to receive this early payment. The regulations at this date provide that a farm operator or landlord, have until January 1, 1940 to carry out any approved soil-building practice on the farm. Those farm operators who lack sufficient soil-building units to earn maximum soil-building allowances for the farm, can sing an application for payment when the forms are received, however, their application for payment must be withheld in the County Office until after the 1st of January, 1940, before it can be transmitted to the State Office. We are urged that all producers who have not carried out sufficient soil-building units, to earn all of their soil-building allowances, to do so immediately so that they may be participant in the expected early conservation payments. We have been advised that this payment will be received in the county office within the next week or 10 days, and upon receipt of these forms in the county office, all producers who are eligible for payment will be notified to call by the office and make application for this payment by signing the necessary forms. The soil building allowance for all farms is determined in the same manner. This method of determining soil building allowances provides that a payment of 50 cents per acre for each acre in soil conserving allotment, plus 2 cents an acre for each acre of non crop open pasture land, plus \$1.00 per animal unit for each animal unit that the non crop open pasture land will carry on a 12 months basis (the average for the county is one animal unit to 17 acres non crop open pasture land,) plus \$1.50 for each acre of commercial orchard on the farm as of January 1, 1939. The total of these calculations is the maximum soil building payment which can be earned for the farm. Two-thirds of this amount of money represents the number of soilbuilding units necessary to carry out in order to have carried out sufficient soil-building practices. All farms which are completely contoured and have carried out contour farming practice and contour listing practice, have earned the maximum number of units, however, farms that are not terraced or contoured, or where tanks have not been constructed, it is necessary to do green manure practices to earn these units, such as turning under of cane, sudan, peas, etc., after they have attained a reasonable growth.

The county office will be glad to check over your units for any individual in the county, and we plan to notify producers immediately who have not carried out sufficient units to earn all of their soil-building allowances. P. C. WYLIE, Sec'y.

Give me the liberty to know, to think, to believe, and to utter freely, according to conscience, above all other liberties.—John Milton.

## DOVIE NEWS

By Mrs. Ira Green

An interesting program was given by the Dovie League Sunday evening, Sept. 24. Mr. Elvin Cooley was leader.

There was a Council meeting in the home of Mr. R. H. Cooley's, Wednesday night, Sept. 27.

The young people of Dovie enjoyed a very nice time Thursday night, Sept. 28. A weiner roast was held in Fred Bessire's pasture. Everyone reported a very nice time.

Mrs. Mattie Griffin of Mexico is spending a week in the home of Mr. Louis Holden.

The Dovie school will resume its classes Monday, Oct. 2. School was dismissed in order that those students, who were needed by the parents to work in the cotton fields, might be free to help gather cotton.

Mr. and Mrs. R. H. Cooley spent Sunday in the home of Mr. and Mrs. Jim Cooley. They visited in the evening in the home of Mr. and Mrs. Ira Green.

Miss Beatrice Cooley, Earnestine Reed and James Goodgame and Gerald Renfro were in Stamford, shopping last Wednesday.

Alvis Cooley, who is in school at McMurry, Abilene, spent the week-end in the home of his parents, Mr. and Mrs. R. H. Cooley.

Miss Beatrice Cooley and Mr. Gerald Renfro accompanied Miss Earnestine Reed on a trip to Abilene last week.

Mr. Jay Green of Sweetwater spent the week-end in the home of his parents, Mr. and Mrs. J. C. Green.

## TUXEDO NEWS TIPS

By Ruby McCoy

Miss Bernadell Bush spent Saturday with Mr. and Mrs. J. B. Bush, of Stamford.

Miss Maydell Ward, who is attending Hardin-Simmons University in Abilene spent the week-end with her parents, Mr. and Mrs. J. P. Ward and sons, J. P. Jr., and Don. Mr. and Mrs. J. L. Meads and son Billy and Marion Lee of Seymour visited Mr. and Mrs. R. C. Bush and family and other relatives here Sunday.

Miss Viola King who is a nurse in the Stamford hospital is home for a weeks vacation.

Tuxedo school started Monday morning. The teachers are: Miss Merle Eaton, Miss Marcella Gay and Leonard McNutt.

Those entering Stamford school for their Junior year are: Welton McKennon, William Brigham, Alton Furr, Reed Baize, Bryan Ethridge, Helen Pritchard, Vada Lee Meads and Wanda Fay Bush. Kenneth Link, Pauline Rivers, Loujean McAllister and Rose Newman are Seniors in Stamford High School. J. P. Ward is a Senior in Anson High School and A. L. Hudson is a Junior in Hamlin High School.

Miss Anna Lee King is visiting her parents, Mr. and Mrs. Newt King.

Construction of the new home of Mr. and Mrs. C. P. Amerson is coming along nicely.

Rev. Cox of Abilene filled his regular appointment at the Baptist church, Sunday. Two interesting sermons were delivered. Baptismal services were held Sunday night. Adding a new member to the church membership.

Rev. and Mrs. Cox, with several assistants took church census Sunday afternoon. This information will be used for further church work.

Gene Bush has been working the past few days near Munday, Texas. Milton Raley is attending Hardin-Simmons University, Abilene.

Rev. and Mrs. J. L. Bates formerly of Fort Smith, Ark., are now making their home with Mrs. Margaret Ashburn. Rev. Bates is pastor of the Nazarene church, Stamford.

Mr. and Mrs. C. H. Stonesifer of Vernon are visiting their sons, John and Elmer Stonesifer in the Flat Top community.

Mrs. Curtis Martin and Mrs. R. Y. Barrow spent Saturday and Sunday in Stephenville visiting their daughters, Misses Marian Martin and Mildred Barrow, students in John Tarlton College. They were accompanied by Miss Tommie Nell Holman.

I find the great thing in this world is not so much where we stand, as in what direction we are moving.—Oliver Wendell Holmes.

## BOYD CHAPEL CHIRPS

(Mrs. L. F. Cozzen)

We are very sorry to learn that Mr. and Mrs. Leon Rogers are moving to California. Mrs. Rogers will be remembered as Mattie Lou Brigham, one of the Boyd Chapel girls.

Mr. and Mrs. Clarence Hill and family and Mr. and Mrs. Delmer Hill and baby spent the week-end with their parents, Mr. and Mrs. Luther Haught.

Mr. and Mrs. Ernest Cozzen and baby spent the week-end with her sister, Mr. and Mrs. Lory Hancock in Sylvester. Mr. and Mrs. Lory Hancock, Marshall Haught and Ruby McCasling visited in the home of Mr. and Mrs. Earnest Cozzen, Sunday evening.

Mr. and Mrs. Lester Wood spent the week-end in Cahoma visiting friends.

Mr. and Mrs. Avory Adams and family of Tulia, Texas spent Saturday with the L. F. Cozzens. Mrs. J. E. Killen and John Ed, of Trent spent the week-end with her parents, Mr. and Mrs. L. F. Cozzen. John Ed says he is fine—he recently returned from the hospital in Dallas. Mr. L. P. Cozzen of Lamesa is spending a few days with his parents.

Rev. Vaughan filled the pulpit at the Baptist Church, Sunday morning and evening. The young people gave a very interesting program Sunday evening.

Those who attended the Quarterly Conference at the McCaulley M. E. Church, Sunday from our community were: Mr. and Mrs. J. A. Holden, Mrs. Whittenburgh, Mr. Earl Brown, Mr. L. F. Cozzen and his daughters, Betty and Virginia. Several from our community attended the singing at McCaulley, Sunday afternoon.—Mr. and Mrs. Delmer Estes, W. M. Kelley and Junior Haught.

Mrs. L. F. Cozzen and L. P. and Betty spent a few days of this week with their daughter and sister, Mrs. Vaden Lester of O'Brien.

Mr. and Mrs. A. L. Haught of Hitson spent Sunday with Mr. and Mrs. Luther Haught and family.

Mrs. Ernest McClure's parents, Mr. and Mrs. Early of Anson, spent Sunday with her.

Mr. and Mrs. J. P. Cornelius and daughter, Bobbie were in Abilene, Saturday.

Boyd Chapel teachers and partons met Thursday night and re-organized their P. T. A. The following officers were elected: Mr. Gosey, President; Mr. Thomps Young,

Vice-President and Mrs. L. F. zen, Secretary and Treasurer.

We are sorry to lose Mr. Mrs. Delmer Estes from our m. They have gone to some place California, to a baby specialist have little Nelda Lee operated. We wish for them all the suc that can come their way and wi expecting them back in the future.

Jessie Hancock spent Saturday night and Sunday with his wife Hitson, we are glad to know he ports her doing fine, improving every day.

Olen Young has enlisted in Navy. We regret to lose this young man from our commun but wish him the best of everyt in life as he goes out into a b field of labor like that. Luck you Olen.

Mr. and Mrs. J. L. Crow s Sunday with the Maddens McCaulley.

The greater the obstacle the glory in overcoming it.—Moliere

Life is a succession of les which must be lived to be ur stood—Emerson.

Such as are your habitual thou so also will be the character your mind.—Marcus Aurelius.
